Installing the SIM and battery
1. Using the battery cover release latch, pull out the battery cover of the phone. Then slide the battery cover off your phone and slide it downwards and then slide it out.

2. Turn over the battery cover to remove the part of the battery cover.

3. Insert the SIM card into the SIM card holder. Make sure that the gold contact area of the SIM card faces the bottom of the SIM card holder.

4. Replace the battery cover.

Getting to know your phone

How to unlock your phone
Press the Unlock key. When your phone is locked, you can only make emergency calls. To unlock your phone, press the Unlock key.

Getting to know your phone

Your home screen
The status bar
The status bar is the part of the display that contains things like signal strength, network, battery life, and any alerts you receive. The Bluetooth connection is active when a Bluetooth icon appears on the status bar.

Unlocking the screen
You can unlock the screen by swiping the screen in any direction. You can also use your fingerprint to unlock the screen.

Getting to know your phone

Turning the Phone On or Off
1. To turn on, install a charged battery.

2. Remove the battery
To install the battery, insert the battery into the opening on the back of the phone. Make sure that the gold contact area of the battery faces the bottom of the battery compartment. Then slide the battery cover until it clips into place.

3. Replace the battery cover

4. Charging your phone
Pull out the cover of the charger socket on the top of your LG900G. Insert the top of the battery first into the top edge of the battery compartment. Then slide the battery until it clips into place.

5. Replace the battery cover
