Installing the Battery

1. To install the battery, align the battery contacts (1) with those in the battery compartment. Push the battery down until it clicks into place (2).

2. Lift the battery up (1) and away (2) from the phone, as shown.

3. When the phone is completely charged, the screen shows a charge rate symbol for two seconds. The symbol begins to change from a vertical line to a horizontal line as the battery is being charged.

Using the Charger

1. Open the cover on the accessory port on the right side of the phone and plug the charger connector into the jack. Be sure to orient the connector as shown below in the picture in this guide.

2. Plug the other end of the charger into a standard AC wall outlet.

3. Plug the charger into the USB port of your laptop or PC to charge the battery. Please make sure that the ‘B’ side of the connector is facing up.

4. Remove the charger from the phone by gently pulling out the connector. Replace the plastic cover over the open jack.

Changing the Battery

1. To remove the battery, push the battery switch (1) to remove the battery. Please remember to only use LG approved batteries and chargers.

2. Do not remove the battery from the phone while charging and make sure the option battery is disconnected from the phone before removing the battery.

3. To install the battery, align the battery contacts (1) with those in the battery compartment. Push the battery down until it clicks into place (2).

4. Remove the charger from the phone by gently pulling out the connector. Replace the plastic cover over the open jack.
Entering text

Press the keys labeled with the letter you want once for the first letter, twice for the second letter, and so on. Press and hold the key for a long time to enter numbers or symbols. See CHARACTERS for available numbers and symbols.

Example:
